Asian Market

Asia is one of the fast-growing markets in the igaming industry. However, it's quite challenging too, since new products and services are constantly being added to provide new and more attractive solutions for the players to bet on.

BetConstruct considers Asia as a high potential region to establish its position. It keeps on expanding its market-specific offerings to ensure its partner-operators new and unique product portfolio to stand out from the tough competition.

Partner Solutions

The following partnering options are possible in the region:

Turnkey Solution

Our Turnkey Solution comes with 24/7 support to help you operate hassle-free under your own licences. You can benefit from the whole spectrum of our betting and gaming products.

Partner API Solution

Our partners can make the most of our robust API solution. Through this solution, you can integrate our betting and gaming products into your platform.

Swarm API Solution

BetConstruct's Swarm API solution gives an opportunity to connect and get sports and game data right into your custom frontend.

Spring Pro Solution

Spring Pro gives operational independence from BetConstruct. Your own team of live traders and risk managers are able to manage your betting operations while having a fully supported Spring platform on your servers with our Spring Pro solution.

SPORTSBOOK

BetConstruct's Sportsbook is the most complete Sportsbook offer in the market with 45,000+ Live events and 75,000+ Pre Match events monthly and over 120 sports types available. It is backed by powerful risk management solution and backoffice tools. The solution is the combination of advanced technology and ultimate flexibility for the operators. Specifically for the Asian market, we offer Asian view of Sportsbook to meet market requirements.

- Advanced betting tools: Edit Bet, SuperBet, Counter-offer
- Cash-out types: Partial, Full, Auto
- Bonus types: Freebets, Accumulator Bonus, Wagering Bonus, Profit Boost
- Backoffice Tools: choose markets, set margins, fix limits, view players, real-time reports
- Supported Channels: Web, Mobile, Applications (Android, IOS), Retail, Terminals

ESPORTS

Esports offers over 10,000 unique live events monthly and 4,000+ pre-match events including 10 major championships such as LoL, Overwatch, CS:GO, DOTA2, KoG, Starcraft, Starcraft2, Rainbow Six. The operators have a unique chance to offer exclusive esports content for the players both during peak and quiet hours ensuring 24/7 betting experience.

LAND BASED SOLUTION

BetConstruct offers five SaaS solutions to boost your land based business namely Self Service Betting Terminals, Betshop Cashier Client, Live Monitor Application and Betshop Terminals.

- Cutting edge touch screen technology
- User-friendly terminals
- Drag & drop technology
- Live odds display
- Play with RFID
- Payout machines
- Printable results generation

CASINO SUITE

For the Asian market, BetConstruct offers more than 6,000 slot games for web and over 4,500 for mobile from major game developers such as Microgaming, NetEnt, EGT, YggDrasil, Play'N GO, ORXY, to name a few.

In-House Slots

BetConstruct offers in-house HTML5 casino slots available on multiple channels that have engaging interface, powerful graphic solutions and intuitive navigation.

Branded Slots

Operators are granted a unique opportunity to offer their players their own branded slot games. We implement the latest technologies to achieve the best results.

Slotbuilder

BetConstruct provides a robust platform for the operators who want to build custom slot games on their own by uploading the design into the slot machine and customizing the sound.

LIVE CASINO

BetConstruct's Live Casino offer includes 3 solutions: Generic tables, Dedicated tables and online setup for land-based casinos. For the Asian market, currently, we offer live casino games from various 3rd party providers such as NetEnt, Evolution Gaming, Portomaso, etc.

Generic tables

BetConstruct Live Casino generic tables include Baccarat, Speed Baccarat, Super Six Baccarat, Roulette, Blackjack, Bet on Poker and specific Asian games such as Dragon Tiger, Pai Gow and Bet-on Teen Patti. The games are played at 33 tables and broadcasted in 6 languages.

Dedicated tables

Our partners get an exceptional offer to have their branded live casino tables or even dedicated halls as our partner FashionTV Gaming Group does. The partners can also benefit from our bonuses and live promotions customized to their requirements.

Online solution for land-based casino

BetConstruct has a great solution for the land based casinos to have an online presence, too. All they need is a live casino table in their casino, the configurations and setups are covered by BetConstruct for the seamless gaming experience.

Products

CRM

CRM software is a great marketing solution to have better insights into your relationship with your clients. It is an automated marketing and analytics tool that allows our partners to plan promotions, analyze the results by delivering accurate and deep info for data-driven marketing campaigns and successful player communication. The key component of CRM and its application is its direct and two-sided interaction with customers through a variety of touchpoints such as registration, deposit, bet, login, etc.

FEEDCONSTRUCT

We have brought all the four major data feed solutions; Odds Feed, Live Scouting Data, Statistics and Live Sports Video Streaming together under one platform to make it easier and simpler to access sports feeds from a single place.

SPRINGBUILDER

BetConstruct made it easier for the operators to build their own betting and gaming website without any technical skills. You can choose from a wide range of betting and gaming templates or you can build your own website via our drag-and-drop technology. You can also integrate our CRM system, affiliate program and much more.
